

# Veterans' MATES Clinical Audit - Patient Review

## 16 ACRRM Mandatory points per topic completed

### Promoting Quality Use of Medicines for Veterans

**GPs registered in the ACRRM Professional Development Program that complete any Veterans' MATES topic and complete the essential requirements of a clinical audit, are eligible for 16 Extended Skills points.**

#### What do I need to do?

Each Clinical Audit - Patient Review involves completing one Veterans' MATES topic. You can undertake any topic from the Veterans' MATES Program for which you are managing veterans selected in that topic. You must complete one topic to obtain 16 Extended Skills points.

#### For each topic you must complete the following steps:

- Identification of a specific audit topic
- Identification of existing standards or establishment of standards
- Collection of data
- Comparison of own practice with standards
- Determination of changes required to improve practice
- Implementation of changes
- Evaluation of the effect of changes on practice outcomes

#### How do I register and obtain ACRRM PDP points?

Return your response form in the prepaid envelope OR SUBMIT ONLINE ([www.veteransmates.net.au](http://www.veteransmates.net.au)). Ensure you include your ACRRM membership number. Please note: the program is available only to GPs that manage veterans selected in Veterans' MATES topics.
